VAN BUREN COUNTY QUORUM COURT
RESOLUTION NO. 2003-3

BE IT RESOLVED BY THE QUORUM COURT OF VAN BUREN COUNTY, ARKANSAS, A RESOLUTION ENTITLED:

A RESOLUTION IN SUPPORT OF EXTRAORDINARY RESOURCE WATER DESIGNATIONS IN VAN BUREN COUNTY ARKANSAS.

WHEREAS, the designation of a waterway or body of water as an Extraordinary Resource Water is undertaken for the primary purpose of recognizing such waters as special, unique, and waters which should be protected as best as possible in their natural or current state: and

WHEREAS, Van Buren County includes within its borders Greer's Ferry Lake and various rivers and streams which are characterized by their scenic beauty, aesthetics, scientific value, broad scope recreation potential, and intangible social value, all of which make such waters suitable and eligible for designation as Extraordinary Resource Waters: and

WHEREAS, some waters within the borders of Van Buren County have already been designated as Extraordinary Resource Waters by the Arkansas Department of Environmental Quality and the Arkansas Pollution Control and Ecology Commission: and

WHEREAS, the Quorum Court of Van Buren County, Arkansas by and through its adoption of Resolution No. 2002-10, dated June 20, 2002, did adopt a position in opposition to the designation of waters within Van Buren County, Arkansas, as Extraordinary Resource Waters with a request that such designations be removed from all County waters to which such designations had been made: and

WHEREAS, after subsequent reconsideration of the effect of the adoption of Resolution No. 2002-10, it appears that said Resolution might indicate a total objection to the Extraordinary Resource Water designation by this Quorum Court: and

WHEREAS, it is the position of the Quorum Court of Van Buren County, Arkansas, that the designation of waters within Van Buren County, Arkansas as Extraordinary Resource Waters would not be objectionable provided that any such designations be made only after any required public notice, co-ordination with local governments, completion of necessary economic and social impact studies, and other actions are taken. All as provided under the Federal Clean Water Act and/or other relevant statutes and regulations:

THEREFORE, BE IT RESOLVED BY THE QUORUM COURT OF VAN BUREN COUNTY THAT:

Section 1: The Arkansas Department of Environmental Quality and the Arkansas Pollution Control and Ecology Commission have the support of the Quorum Court of Van Buren County, Arkansas, to designate various waters within said County as Extraordinary Resource Waters where, following full public notice, co-ordination with local governments, completion of necessary economic and social impact studies, and the taking of all other actions as provided under the Federal Clean Water act and/or other relevant statutes and regulations, it has been determined that such waters should be designated as Extraordinary Resource Waters.
